

WASHINGTON, September 26.—(By the United Press)—A labyrinth of subterranean passages, discovered beneath several blocks of Washington's most exclusive residential section, rumored with German newspapers of 1917 and 1918, has revived some of the old war atmosphere in the capital and talk of spies.

A gapping hole, made when the wheels of a motor truck sank through the earth led to its discovery and investigation. Once penetrated, it was found to be large enough for a person to stand upright, walled with enameled tiles and wired with electricity.

A searching party has followed several avenues but has as yet failed to trace them all to their ends. One tunnel skirted the rear of the home of Edward B. McClellan, local publisher, and is thought to have an unlocated outlet on a street several hundred yards away. Another passage led to a walled garden on an adjoining street, still another was blocked by a cement door which could not be moved, while a fourth only partly explored, extended as far as the banks of Rock Creek, two blocks away.

The walls of the passage were lined with white enameled brick. On the ceiling were pasted numerous copies of German newspapers dated during the summer of 1917 and 1918. By electric torches it was possible to discern in newspaper articles frequent reference to submarine activities. The papers were defaced to some extent by cryptic designs and engravings in cipher.

Investigators also discovered an iron ladder extending downward into the earth. After considerable digging, several rungs of the ladder were uncovered and a cement arch, which is believed to be connected with apartments still deeper in the earth was revealed.

As the party moved on in its explorations, some passages narrowed and the investigators were forced to worm their way on hands and knees. At one place the labyrinth widened into a cross road with miniature avenues branching out in several directions.

The newspapers and other litter have led to the belief that the tunnels may have been the rendezvous of spies during the war but its wide extent and the purpose of its many avenues are not yet understood.

The electric light installation and a profusion of bottles are however, believed by some to be due to a later inhabitation of bootleggers.

# Governor Smith Renominated By Acclamation In New York

BY PERCY SCOTT

Al Smith, acknowledged head of the New York Democratic organization, was nominated by acclamation by the Democratic state convention here today and will begin at once a strong campaign for the governorship, running on a platform supporting the Democratic national program, but denouncing the Ku Klux Klan by name and demanding modification of the Volstead law to legalize the sale of beer and light wines, "under such careful restrictions as were imposed by the law passed in New York in 1920."  
The Republican convention at Rochester nominated Theodore Roosevelt as its gubernatorial candidate and Roosevelt tendered his resignation as assistant secretary of the navy to President Coolidge today and announced he will start campaigning at once. The Republican platform also denounces the Klan by name, but disposes of the prohibition question with a law and order plank pledging the party to upholding the constitution and enforcing all laws.

# THOUSANDS FLOCK TO JACKSON TO ATTEND THE EISTEDDFOD

## Portsmouth Male Chorus On the Afternoon Program

JACKSON, Ohio, September 26.—Jackson's third annual Eisteddfod opened here this morning under most auspicious circumstances, with thousands pouring into the big tent erected on the old Fair Grounds, below South street, long before the hour for starting the competition had arrived.

No sooner had President Evan O. Roberts, of the Southern Ohio Eisteddfod Association, called the big gathering to order than one fact became apparent, the Eisteddfod would be conducted along the old lines, begun almost with the founding of the institution.

One of the first acts was the pronouncing of the Invocation, without which no Eisteddfod is ever started. The Eisteddfod, most ancient institution of the Welsh people, has been popular in this country for many years, although it has never reached the popularity among non-Welsh people that obtains among those in whose veins courses the blood of Cambria. By means of national competitions, the arts have been kept alive and have flourished in Wales for years. The poorest of Welsh peasants enjoy intimacy with the arts, stimulated and furthered by this national institution.

Judge H. M. Edwards, of Scranton, Pa., is acting as conductor of the Eisteddfod, a most difficult position, that of keeping events moving with rapidity throughout the long program of three sessions, and of keeping in good humor the big crowd throughout the dragging hours.

Adjudicators for the day are: Music—Prof. John T. Watkins, Scranton, Pa.

Literary—Dr. D. Jenkins, Columbus, Ohio.

Drawing and Penmanship—Patou Edwards, Akron, Ohio.

Official Accompanists—Miss Laura Davis Morgan, James Dale Jackson.

Officers of the Southern Ohio Eisteddfod association are:

President—Evan O. Roberts.

First Vice President—Judge Bonner Jones.

Second Vice President—Enoch S.

Thoms.

Third Vice President—Frederick E. Jones.

General Secretary—David E. Howell.

Financial Secretary—T. Everett Morgan.

Treasurer—Daniel J. Herbert.

Conductor of Eisteddfod—Judge H. M. Edwards, Scranton, Pa.

The morning session opened at 10:30 with addresses of welcome by President Evan O. Roberts and Conductor Judge H. M. Edwards.

The awards of the morning were as follows:

Solo for boys under 16 years of age, "The King's Bell," two contestants, the prize of \$5.00 going to Edward Michael of Jackson.

Recitation, "The King's Bell," girls under 14, 3 contestants, the prize won by Laura Hawk of Jackson.

Solo—Girls under 13, three contestants, the prize won by Elizabeth Casely of Jackson.

Piano solo, under 12 years of age, prize \$5.00, won by Mary Esther Allison, Columbus.

Penmanship, "Citizenship," open to all pupils of the elementary schools, prize \$5.00, Mary Esther Allison, Columbus.

Recitation, "Rich Was I," boys under 14, prize, \$5.00, Robert Peters, Jackson.

Piano Solo, 12 to 16 years of age, Catherine Dando, Weston.

Children's Chorus, Eighth grade and below, prize \$50.00, won by the Weston children.

Piano duet, under 12 years of age, prize \$10.00, Tabitha Ridgeway and Hester Booth, of Jackson.

Short story, for those under 20, prize \$15.00, on by Margaret Ann Evans of Van Wert, a cousin of Ben Ames Williams.

High School Chorus, prize \$50.00, won by Jackson competing against Weston.

Penmanship, "Letter To Mrs. Bixby," Elizabeth Jones, Jackson, who has won this prize for three years.

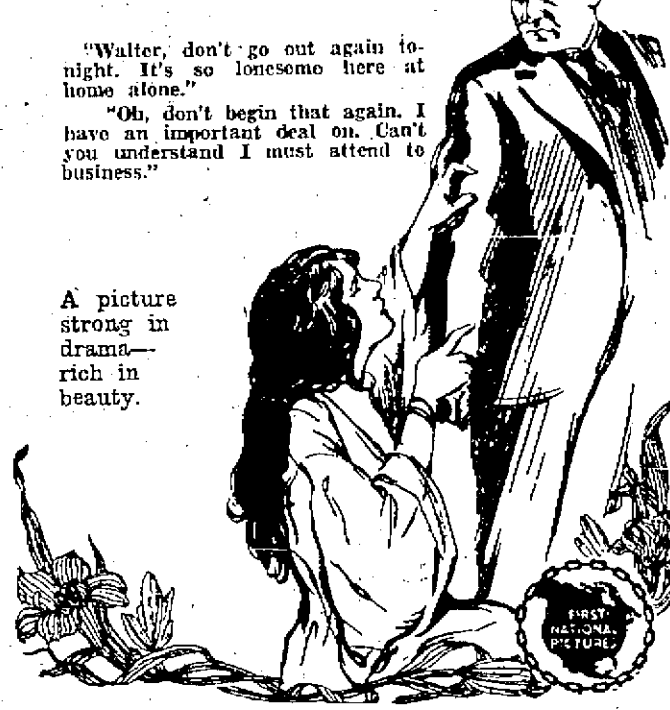

The contests continued throughout the afternoon and will be completed this evening.

## Let Kellogg's Bran free your children from that dangerous disease—constipation

Children are subject to constipation. In the excitement of play, they neglect themselves and foster this dread disease. More than forty other diseases can be traced to constipation. Don't delay. Begin at once to cleanse their systems of the dangerous poisons.

Kellogg's Bran sweeps the intestine clean—and purifies it. It drives out the poisons which undermine your children's health. It makes the bowels function regularly and naturally.

Kellogg's Bran, cooked and krumbed, is guaranteed to bring results if eaten regularly, or your grocer will return your money. It is guaranteed because it is ALL bran. Nothing but all bran can be 100 per cent effective. Kellogg's Bran is recommended by doctors everywhere—they know from experience that it brings results.

## Coolidge Or Chaos, Says Dawes In Addressing Minnesota Voters

MINNEAPOLIS, Minn., Sept. 26.—Charles G. Dawes, Republican vice presidential nominee, tackled about his connection with the Lorimer Bank case at his meeting here tonight, declared mention of the matter by Senator Wheeler, Independent, candidate for vice president, was like "sulphurated by hydrogen—it only leaves a bad smell."

MINNEAPOLIS, Sept. 26.—The alternative of "Coolidge or chaos" was portrayed to the voters of Minnesota by Charles G. Dawes, Republican candidate for vice president, in a round half dozen addresses yesterday on a tour that began with a rear platform speech at Rochester, and ended with a mass meeting here last night.

Entering Minnesota, a state in which the Republican leaders frankly admit the existence of a bitter contest with the La Follette Independent candidate and in which the La Follette nominee for vice president, Senator Wheeler, Montana, also is now making a campaign trip, Mr. Dawes attacked the veto of judicial decisions as an assault on the constitution of the United States.

"What kind of a government will we have, what kind of a life will we lead, what will become of wages, what will become of business, what will become of the price of farm products, if this attack on the government of the United States succeeds?" he asked again and again, answering his own questions he invariably replied:

"Chaos. That's what we would have."

The Republican nominee in his Rochester speech made and later repeated, the charge that Senator La Fol-

lette "in order to get the socialists who fly the red flag into his combination assaulted the constitution of the United States and our form of government."

DULUTH, MINN., Sept. 26.—Two audiences in northern Minnesota, the last which he addressed in the state this campaign, heard Senator Wheeler, Independent candidate for vice president, discuss issues on which Senator La Follette and himself appeal for support.

General Dawes, Republican candidate for vice president, came in for renewed criticism in both talks. He traveled 150 miles by automobile into the iron mining country to make the first address at Virginia, but came back to Duluth for the second and final appearance.

### MRS. SWEETEN IN SERIOUS CONDITION

SALEM, ILL., Sept. 26.—Continued refusal to partake of food, coupled with the strenuous events of the last three days, and the loss of sleep last night had cast Mrs. Elsie Sweeten, held here on a charge of having poisoned her husband, Wilfred Sweeten into a state of semi-consciousness.

Indications that the woman's mind has become impaired since confession that she poisoned her husband at the instigation of the Rev. Lawrence M. High, who in turn poisoned his wife, so that they could be married, have become noticeable, officials said.

A glass of milk, served last night constituted the only nourishment she has had since she arrived here, though Sheriff Vogt has repeatedly urged her to eat and has offered to get her anything she would desire.

Another enthusiastic meeting of volley ball players was held Thursday night at Boy Scout headquarters, when an organization for this year was completed by election of the following officers: President, Lester Finney; vice president, Robert McNamara; secretary-treasurer, J. T. Henderson. Each team is to name one member on the general executive board.  
Two leagues, Class A and Class B, were represented. Class B is still short the fifth team, this place to be filled most likely by the high school faculty. The opening date of the new season was fixed as October 6 and will run eleven weeks, closing December 20.  
L. T. Henderson and Robert McNamara were named to draft schedule for A. League while Dr. Clyde Fitch, B. L. Schusky and John Ellis were named on the schedule committee for B. League.  
L. T. Henderson was named to make plans for a big banquet to be held in the near future before the opening of the new season. All last season's players are to be invited in addition to special guests.

## Coolidge Continues Lead In Magazine's "Straw Vote"

Coolidge again leads in the second returns of The Literary Digest's straw vote presidential poll published today. La Follette second and Davis third.

Of a total of 272,290 votes tabulated, Coolidge has 102,473, La Follette, 63,414, and Davis 42,811. In California, La Follette is running Coolidge a strong second, having 2,629 tallies to the President's 22,845. Davis is leading the field in Texas and Virginia and is also ahead of La Follette in Ohio, Kansas, and West Virginia. In all other states the Senator from Wisconsin is leading the Democratic candidate.

"The poll at first blush," The Digest states, "may not seem very cheering to Democrats, but a slight inspection

will show the fact that, with two exceptions, the Democratic states are still to be heard from and when they begin to flood in their ballots, the figures may have another story to tell.

"In the meantime it may be interesting to observe how firmly the La Follette strength is holding up in California. The first returns, reported last week, gave Coolidge 1,024, La Follette, 1,561, and Davis 233. This week, the figures stand Coolidge 22,845, La Follette 10,829, and Davis 3,008. Most Republican political prophets have placed California in the certain column for Coolidge, and founded their computations on a total electoral vote in which the Pacific State's thirteen ballots were included.

In Illinois, the La Follette vote of 12,726 is drawn from 2,318 former Democrats and 6,715 former Republicans, with 8,353 who did not vote in 1920. Mr. Coolidge's vote of 38,209 in the same state is drawn 28,831 from former Republicans, and 1,033 from former Democrats, with 8,347 not specifying.

"Mr. Davis' vote of 9,147, however, includes almost as many former Republican votes as Mr. Coolidge's includes former Democrats. In spite of his total vote of less than one-fourth of the number credited to Mr. Coolidge, the Democratic candidate has captured 1,366 ex-Republicans. The whole matter of this floating vote, will, of course, gain in significance with increasing returns. "Of course," The Digest explains, "it must be taken into consideration that the present poll is just getting under way, with 1,000,000 ballots per day still being mailed out to various parts of the country. That 38 of the 48 states are still to be heard from, and that there is thus far only a comparatively small vote from the twelve paratively small vote from the twelve considerably change the complexion of the returns.

**With ROOSEVELT IN AFRICA**  
by W. Robert Foran  
© 1924 NEA Service, Inc.

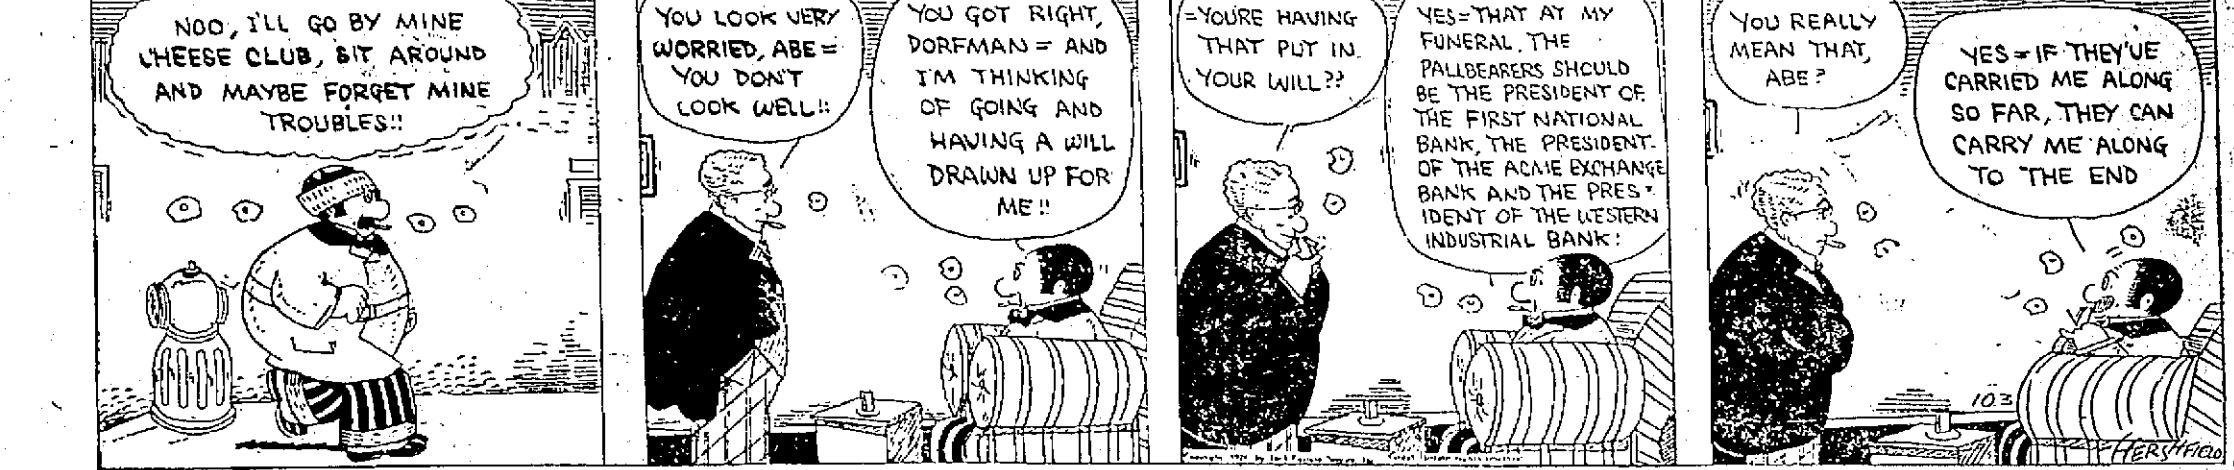

**BEGIN HERE TODAY**  
Robert Foran, newspaper correspondent, accompanies the Theodore Roosevelt expedition into Africa in 1909. They arrive at Mambasa, the "gate-way to British East Africa," and then make the railroad journey to their first camp on the game-crowded Kapiti Plains. With Colonel Roosevelt, his son, Kermit, and three scientific members of his staff—Major Edgar A. Mearns, Edmund Heller and J. Allen Loring. After a wonderfully successful shooting trip in the Sottik country, the expedition camps for hunting at a farm called Salada. Proceeding to Naivasha, the party meets with more good sport. Foran and Colonel Roosevelt set out to shoot a pelican for the museum. The hunt is unsuccessful, however. NOW GO ON WITH THE STORY. Kermit and Mearns had been out after spring-hares the previous night, and had been fairly successful shooting them with the aid of lanterns. They had not got back to bed in camp until after three o'clock. We found Mearns up and having breakfast, when we reached camp after our unsuccessful hunt after pelicans; Kermit, however, was still sleeping off the effects of his night-hunting exertions. After breakfast, Colonel Roosevelt, Kermit and myself, having now secured a pair of oars for the boat—started out once more after the pelicans. The Colonel sat in the bow with his rifle across his knees and a slot-gun at his side; Kermit sat in the stern with his two guns; while I rowed and Roosevelt made a very pretty shot at two Egyptian geese, and dropped them both; they were on the wing, and it was a difficult shot. After we had picked them up from the water, we saw the pelicans. But this time there

ROOSEVELT AT THE MISSION NEAR NAIROBI.

There were only two of them, instead of four. As we gradually neared them, with as little noise as possible, Colonel Roosevelt prepared to shoot. I rowed the boat to within 50 yards of them, and then stopped rowing as I was afraid of startling them. Taking steady aim and allowing for the gentle rocking of the boat, Roosevelt fired. Away flew the two birds, and we thought he had missed them. Suddenly, however, one of them flopped down into the water, and lay motionless on the side. I rowed hastily toward our prey, and we had soon recovered it. We knew that the doctor would be pleased for his collection of birds. The other bird, however, would not let us approach near enough for Kermit to shoot at it. CHAPTER XII. Race Week in Nairobi. "No, I didn't have any luck this trip on a single lion." It was Selous who spoke, and his voice was inexpressibly sad and disappointed. He stood talking to Theodore Roosevelt on the railroad platform at Nairobi. Our train had just come in from Nairobi, and we found Selous waiting for it to proceed onward to Mambasa, where he was to embark for home. He had just completed a two-months' trip with McMillan, Williams and Judd, the professional hunter. He did not even have the chance of a shot at a lion; yet Williams had killed two, and had been badly mauled by a third who charged after being mortally wounded. His gun-bearer had actually killed it over him and thus saved his master's life. "The Judd had a remarkable adventure," went on the gentle voice of Selous, as the two men sat side by side on a bench on the platform. "Judd and I saw a couple of lionesses, and followed after them. That was in the Maa district. Judd was some eighty yards or so behind me, riding a mule. I suddenly missed one of the lionesses, but carried on after the other. The lioness stopped, apparently, and

LONDON, Sept. 26.—Something near a struggle between the executive of the labor party and a large section of the members is in progress over the question of affiliation with the communists, several branches of the party have given notice of resolutions in favor of the communist application for affiliation at the annual labor conference to be opened on Oct. 7, and the demand for their official inclusion is said to be growing among the rank and file. It is recalled that previous conferences have steadily refused to admit the communists and executive of the labor party in a long statement issued to the members of the party reiterates its opposition to such affiliation.

**COURT RESTRAINS SALE OF PRISON LABOR BRICK TO PRIVATE CONTRACTORS**  
COLUMBUS, Sept. 26.—A temporary injunction restraining John E. Harper, state director of welfare, from selling to private contractors and jobbers, brick manufactured by prison labor at the Junction City brick plant, in Perry county, was issued by Judge Rogers in common pleas court here today.

The order was issued upon application of J. C. Barker, as a taxpayer who alleged that the sale of prison-made brick is contrary to the Ohio Statutes which provides they shall be used solely for public buildings and construction. He alleges that Director Harper has been selling the product of the Junction City plant for several months. Director Harper said tonight that he had not been advised of the issuance of the restraining order and had no statement to make.

**REQUEST PINCHOT TO PROTEST DISMISSAL OF GENERAL BUTLER**  
PHILADELPHIA, Sept. 26.—Governor Pinchot today was requested by the law enforcement league to act as chairman of a "town meeting" Monday night to protest against the expected dismissal of Director of Public Safety Butler by Mayor Kendrick.

The league also telegraphed President Coolidge asking him to aid in "averting a calamity" when he comes to Philadelphia to speak tonight.

Friends of the Mayor say he is to ask Butler's resignation as soon as the director recovers from a cold that has kept him confined to his home. It is understood a letter to this effect has been prepared in which Kendrick refers to Butler's conduct as "intolerable and impossible."

**ARMY, NAVY MEN WANT BROADWAY PLAY SUPPRESSED**

NEW YORK, Sept. 26.—Federal action against the Broadway success "What Price Glory" as a violation of the national defense act was talked by the United States district attorney's office tonight.

General Robert E. Bullard, commander of the second corps area, U. S. army, and Admiral Charles P. Plunkett, commander of the Brooklyn navy yard, were declared to have demanded that immediate steps be taken against producers of the play.

According to members of the federal attorney's staff, the General and the Admiral complained that the drama, with its profanity-besprinkled portrayal of life with the marines abroad during the World War "portends enlistments and in that way violates the national defense act."

**FAR EASTERN COUNTRIES WILL DEMAND RIGHTS BEFORE NATION'S LEAGUE**

GENEVA, Sept. 26.—Indications that the far eastern countries, especially China and Japan, will stand together in insisting upon all their rights before the League of Nations was furnished by tonight's session of the League of Nations. Japan came out squarely in favor of granting China a seat on the council of the league as "a great Asiatic power," thus giving expression to Japanese solidarity.

Persia also backed China's insistence that the great geographical divisions of the world, the principal races and the chief sources of wealth should all be recognized in the distribution of council seats, and urged that China be given a seat because Asia is the largest country in the world, containing half the human race.

**HAMILTON BROKE: 200 VOLUNTEERS TO SERVE AS COPS WITHOUT PAY**

Kelley's solution of the deficiency in the safety fund of the city. Oct. 15, the safety fund will become exhausted. Two hundred volunteers to serve as special policemen. Each will be placed under a \$1,000 bond and appointed for a period of one year. It will cost each special officer \$5 to give the \$1,000 bond and Mayor Kelley says he will ask the citizens to pay this. The mayor says the name of the special officers will be kept secret.

### Aged Woman Is Rescued From Vault

Firemen from the Seventh street station, with ladder equipment, were called late yesterday afternoon to rescue Mrs. Kate Keffer, aged widow of 820 Eleventh street, from an abandoned vault, into which she fell when she went into a shed, on the rear of her lot.

When Mrs. Keffer stepped into the shed, the floor gave way, and she was precipitated into the abandoned vault.

When no ladder was available in the neighborhood, firemen were summoned, and Chief Robert Leedom, Assistant Chief R. L. Shumate, and a crew from the Seventh street ladder company, answered the call.

The firemen soon succeeded in rescuing the woman, who was immediately taken home, and Dr. Carl Brannin summoned.

Mrs. Keffer is in a serious condition as a result of the accident, suffering from shock and cold, and had bruises. Fortunately, no bones were broken.

Misses Edna Borer and Mary Reitz were hostesses for the evening, and the entertainment was prepared by the Board of Directors.

Arrangements were made for a delegation to attend the state convention, to be held at the Deshler hotel, Columbus, Oct. 11 and 12.

The next meeting will be held Oct. 10 at The Ardley.

### Club Enjoys Outing

Dr. H. A. Schirmer's camp was the scene of an enjoyable outing, last night, when the Business and Professional Women's Club were entertained with a chicken dinner.

The members of the club met at the First U. B. church, and made the trip to the camp on a big truck. After dinner, the club enjoyed a social program.

### ONE DEAD, THREE ILL, OF POISONING, BELIEF

CLEVELAND, O., Sept. 25.—Death of a three year old boy and the serious illness of two members of his family today were being investigated by Coroner Hammond. The trio were believed victims of ptomaine poisoning.

Alvin Tremmer, three, was seized with convulsions and died early today. Daniel, 11, his uncle, and Daniel's mother, Mrs. Margaret Tremmer were suffering severe stomach pains. They became ill after eating some peaches, it was said.

### TRIGSHIRE FROCKS ARE SMARTEST FALL MODELS

A designer of dresses in New York City conceived a new idea in frock styling for misses' small sizes. The materials that are in demand are used (twills and pencil stripes). He called his dresses "Trigshires," a name that is on every woman's tongue where the frocks have been shown. The exclusive sale here has been secured by the Atlas Co. With each dress one gets two sets of collars and cuffs so that one may be laundered while the dress is being worn. To introduce them in Portsmouth the price has been fixed at \$19.95.

### CORONER PROBES DEATH

CINCINNATI, Sept. 25.—Coroner D. C. Handley today investigated the death of Joseph Moeddel, 40, painter, who died as a result of a fractured skull.

He was sent to a hospital Tuesday after having been found unconscious at his home. Hospital authorities say that a wardrobe fell upon him.

## John W. Davis Appeals To Americans To Think Once More of Duty and Patriotism And Less of Petty Profit and Gain

HUNTINGTON, W. Va., Sept. 26.—John W. Davis, Democratic presidential nominee, closed a day's tour across southern West Virginia last night with a speech to "my countrymen to think once more of duty and honor and patriotism and sacrifice and less of petty profit and individual gain."

The appeal was voiced in an address here before a crowd which he described as perhaps the largest in the state, gathered in a large hall, the largest conference of people I have seen during this campaign.

In last night's speech Mr. Davis repeated his declarations made during the day that he returned from his trip through the west to the people of his home state full of confidence and with the assurance "that Democracy this year can win if it has the will to win."

Officers Choice of Roads

Like the election to a choice of the road along which the country is to travel for four years, the vehicle for the journey, the rate of travel and the driver, Mr. Davis continued through his speech to follow this figure with harrowing touches that delighted his audience.

In his address, Mr. Davis paid his respects to Republican campaign management:

"The strategy is quite unique," he said. "It consists in the first place of silence. We are confronted this year for the first time in American politics with the theory that the way to win a battle before the people is to keep quiet, about it."

"Then when silence gets a little bit thin their predictions of demise such as I have just described to you appear. And when that fails we have the 'bogey man' again. Now with great respect to my Republican friends whom I love and revere and whose candor, sincerity and honesty I concede without reserve, those who manage their campaigns are the most ingenious creators of political scare crows the world has ever known."

Takes Fling at Daves

Declaring that the days of "raving the bloody shirt" and those when the talk was of panic had gone, he continued:

"The latest 'bogeyman' is that around every corner is stationed a 'red' or 'bolshevik' with a bomb in his hand about to blow up the constitution of the United States unless General Daves and his associates are called forth to defend it."

Taking exceptions to statements that the campaign is being fought by the Republican party "that wants to save the constitution" and those under Senator La Follette "who seek to destroy it," the candidate said, the American people this fall will choose the road they would travel for four years.

"One road is the road of privilege," he said, "and on that road they will find the doctrine prevailing that it is right to so administer the government that some may be made rich, some may be made prosperous at the expense of their fellow citizens, hoping that their prosperity may filter down through all the masses. The other is the road of equality, and on that road the doctrine prevails of a government for and by the people, of equal rights to all men and special privileges to none."

On the latter road he declared there were no seekers for special favors.

PIKETON, September 26.—Thieves last night cracked the safe in the office of the Piketon Lumber Co., and made a getaway with about \$10 in cash.

## Forgery Charge Against Mrs. Harris Dismissed

NEW YORK, September 26.—(By the Associated Press)—A third degree forgery charge against Mrs. Eleanor Elaine Lee Harris, former wife of Beverly D. Harris, one time vice president of the National City Bank was dismissed today by the grand jury.

The grand jury acted on the statement of Harris that he did not care to press the charge. It was Harris who caused his former wife's arrest at a fashionable hotel last May. He alleged she had forged a letter she offered as evidence in an attempt to obtain a new trial of Harris' suit for annulment of their marriage.

"This is a great moral victory," said the woman in criminal court today when she learned the charge had been dismissed. "I am very happy."

Alexander Hussey, counsel for Mrs. Harris, said that his client would continue to fight in the courts for an order compelling the former banker to give Mr. Harris counsel fees and funds with which to make an appeal from the supreme court decision which annulled their marriage.

## Administration Unjust To Many Classes; Speaker Tells Local Democratic Women

Members of the Scioto County Democratic Women's Club, meeting yesterday afternoon at 2 o'clock in the Democratic headquarters, Kricker building, were addressed on the issues of the campaign by Attorney H. D. McLaughlin.

Discussing briefly the local court and state questions that will come before the voters in November, Mr. McLaughlin devoted most of his time to questions of national importance.

Asking four questions, "Shall we have a just government? Shall we have a courageous government? Shall we have an efficient government? Shall we have an honest government?" the speaker cited instances to prove that the Republican administration has been none of these. That the administration has been unjust to many classes, particularly the farmer, that they passed

an unfair tariff law were the first charges brought. Lack of courage was seen in the administration's attitude toward foreign relations, according to Mr. McLaughlin, and lack of efficiency was seen in the failure of the president and congress to co-operate in such measures as the Mellon Bill, the Bonus Bill, the Postal Employees' salary increase and the Japanese Exclusion Act. The recent oil scandals were cited as evidence of lack of honesty.

Following Mr. McLaughlin's address plans were made for a Democratic rally to be held throughout this district next Wednesday. Mrs. E. J. Kidd, Mrs. C. L. Marting and Mrs. E. O. McCall were appointed a committee to complete the arrangements for the rally. Miss Stella McCall was appointed publicity chairman for the organization.

Mrs. C. W. Rowe, president of the

county association, announced that Democratic headquarters will be open every afternoon, beginning next week, and probably as the campaign grows more intense, there will be someone on duty throughout the hours of the day.

ESCAPED. John Kenskrow, seventy-three years old, escaped from Great Meadow prison at Comstock, N. Y., where he was serving a term for burglary.

## CORN MAKES BIG JUMP

CHICAGO, September 26.—Corn made a spectacular advance of as much as six cents a bushel in price today, with something of a stampede to buy on the part of previous sellers. The biggest jump in value was to \$1.10 for July in which however dealings were comparatively scarce.

Official announcement that the condition of the corn crop was even further behind normal than a month ago was largely responsible. There was also a forecast of unfavorable weather approaching.

Other months than July showed at one time 4 3/4 to 5 7/8c gain. The market closed strong 3/8 to 5 1/8c above yesterday's finish, with December, the principal trading month, 2 3/8 to 3 3/4c up at 1.06 1/4 to 1.06 1/2.

## TO OPERATE ON TAGGART

# SHAW CONFESSES TO BURNING BARN

Charles Shaw, arrested by Sheriff Harry Dunham and deputies Wednesday night in connection with the burning of the barn on the Earl Garvey farm on Turkey Creek, made a confession today after being closely questioned by S. J. Patterson, a special investigator from the state fire marshal's department, Columbus.

An effort to have Harrison "Nip" Clifford make a clean breast of the whole affair failed even after he was told of Shaw's complete confession. Clifford and Shaw were arrested on the towpath by the county officers soon after the fire was discovered and word was sent to the sheriff's office.

In his confession Shaw says that Clifford planned the whole affair in his oft repeated threats that he would get even with Garvey for setting the shot-gun trap that cost Clifford his leg, the night of September 1 when a visit was paid to Garvey's chicken coop.

According to Shaw they went to the Garvey farm in Clifford's Chevrolet automobile and that their intention was to get fire to Garvey's home. Shaw says that en route to Turkey Creek they decided this time they would only set fire to the barn. In the confession Shaw says that the machine was driven up close to the barn and that Clifford remained in the machine while he got out and poured coal oil around the barn.

Shaw says that oil was obtained at a Portsmouth gasoline filling station and that he touched the match to the oil that started the destructive blaze which not only destroyed the barn but its contents including hay, grain and stock.

Shaw says that they then drove back towards the city and were caught by the officers near the Scioto river bridge. The young man in his confession says that his actions were only the carrying out of a plan made by Clifford, who could not get about on account of only having one leg.

The Clifford machine did not make good time coming back to the city on account of three flat tires. The right rear tire is almost new and this tire could be easily distinguished near the destroyed barn.

According to Mr. Patterson the state fire marshal's department will see to it that the arson charges pressed to the limit. The penalty is from one to twenty years in the penitentiary. According to Mr. Patterson Clifford is just as guilty as Shaw. In this case although he did not pour out the oil or touch the match to it.

## MAKE YOUR RANGE HEAT YOUR HOME

Wouldn't that be a wonderful comfort to you? Two or three rooms being cozily heated while you are just normally operating your range for cooking purposes. Then think of the economy—the saving of gas or coal formerly required to heat those rooms. Make your dream come true. Come tomorrow to STEINKAMP'S and view the "COLE PATENTED HIGH OVEN RANGE"—the marvelous HOT BLAST Range that does the work of a heater as well, the Range that uses ONE THIRD LESS COAL than the ordinary coal range.

A Seven Day Sale at Sensational Prices --  
A Carload of The Famous

## Cole High Oven Range

This will be truly a record breaking event. Imagine! A solid carload of these super-ranges going at a price about half that of just a common stove. The manufacturers are also the makers of the celebrated "COLE HOT BLAST HEATERS." Only by their generous co-operation are we able to make these extraordinary INTRODUCTORY SALE concessions. Such an opportunity may never come again. SEE THEM TOMORROW.

An Oven--Always Hot and Ready for Your Baking

It is an unchangeable law of nature for heat to rise. The "COLE HIGH OVEN RANGE" takes advantage of this. Note the illustration above. You will see that the oven is ABOVE the stove (at a height convenient without stooping.) Follow the arrows. You see that the heat rises directly to the oven and NONE CAN ESCAPE until it has completely passed around and heated the oven. With an ordinary range the loss of heat up the chimney is immense. In a "COLE" every bit of this heat is put to work. AS LONG AS THERE IS A FIRE IN YOUR STOVE, THE OVEN WILL BE HOT.

### La Follette To Take Swing Across Continent

WASHINGTON, September 26.—(By Associated Press.)—Senator Robert

La Follette, Independent presidential candidate, has decided definitely to make a swing across the continent, carrying his fight for votes into at least a score of states before the closing of the campaign.

The senator's itinerary will carry him into the middle west early in October,

on through the northwest and into the Pacific coast states. He intends to wage warfare with particular vigor in California where elections pledged to him have been ruled off the ballot, forcing his supporters to vote for election listed under the Socialist party designation. Several days will be spent

stumping the state. David K. Niles, is working out the itinerary with Senator La Follette and a definite announcement as to speech making engagements is expected in a day or two.

## Stiller Freed On Promise To Leave County; Still Confiscated

Constable Dan Cullum of New town took into custody Thursday afternoon Dan Coon, of near Scitotown, Vernon township, on a charge of manufacturing moonshine. 50 gallon copper still and large still were confiscated and brought to the New Boston Mayor's office.

According to the arresting officer he watched the "plant" for some time and saw Coon come to the place with a load of wood and feed the fire under the still before arresting him. At the village mayor's office last night, Coon signed a paper that he would not engage in

the manufacture of liquor again and agreed to leave the state within a few days. On signing the statement he was released. This disposal of the case was agreed to by persons instrumental in the man's arrest, the same men working for a general cleanup of that community.

## CONSISTENT ADVERTISING

Is the only kind of advertising that pays. The merchant who puts in an advertisement now and then and hopes to fill his store has the wrong viewpoint. More money has been thrown away on that kind of advertising than on any other kind.

An advertiser who has a proposition of merit, and who presents that proposition, persistently and in the right manner very rarely fails to reap the reward he seeks. The Morning Sun advertising rates are low. A ten-inch ad may be run for as low as \$1.80. The business that can not afford \$1.80 a week for an ad to reach more than 5,000 readers, surely needs the stimulus of advertising.

If you want to reach all the families in the Portsmouth area you must use the Morning Sun in addition to the evening Times. Talk to our circulation men.

Pirates Drop Third Straight To The Giants

NEW YORK, Sept. 26.—(By the A. P.)—The New York Giants vanquished Pittsburgh for the third successive time Thursday and advanced another step toward their fourth straight pennant on the wreck of Pirate hopes. A crowd of 25,000 saw the fighting Giants beat out a 5 to 4 victory and crush beyond recall the last lingering chance of Pittsburgh in the National League pennant race.

The Pirates, however, went down with colors flying in the ninth inning, when, with two out, they rallied and the pulled up to Carey's home run drive which scored Schmidt and Moore ahead of him. But Art Nehf, veteran Giant outpuncher, who had outpitched his portside rival, Wilbur Cooper, and put his team in the lead with a homer in the fifth, checked the belated rally abruptly by striking out "Kiki" Cuyler, brilliant Pirate outfielder for the second time.

By making a clean sweep of the series the Giants increased their margin over the Pirates to 4½ games. Since the champions have only three games more to play, they are considered by Pittsburgh, even if the latter won its remaining five games.

Brooklyn is now the only obstacle in the path of McGraw's fight to hang up a record pennant string for modern baseball history. The Robins were idle today, so the champions stretched their margin over Robinson's crew to one and a half games. By winning two out of the remaining three with Philadelphia McGraw can clinch the flag, even if Brooklyn wins its remaining two with Boston.

Pittsburgh today made only six hits off the diminutive southern pitcher, Nehf, in the ninth inning and they were scattered in as many innings. Their only run in that span came in the fourth when the Giants' makeshift inner defense cracked momentarily and Traylor, singing with two out, scored on successive errors by Lindstrom and Kelly.

A Barnhart, batting for Grimm, opened the ninth with a single. He was forced by Schmidt and Cooper popped out, but Moore also singled and then Carey caught one of Nehf's inshoots and lofted it into the upper section of the left field stands. The score:

GIANTS ELIMINATE PIRATES

NEW YORK, Sept. 26.—The Giants eliminated Pittsburgh from the National League race Thursday and now need to win only two of their three remaining games with Philadelphia to clinch the pennant.

There were no games scheduled in the American League where Washington maintains a two game lead over the Yankees and to clinch the pennant need to win three of their final four with Boston even if New York cleans up its four with the fast traveling Athletics.

Brooklyn did not play today and the Giants increased their lead to one and one-half contests over the Robins, who, even by taking their two remaining games with Boston, can win the flag only if the Giants lose their three with the Phillies.

McGraw's team can tie Brooklyn by winning one of the three.

Play Ashland Team Here Sunday

Sunday, on the Sixteenth and Findlay street lot the MacDonnell Buck Masters will open their football season with the strong Ashland Independents. The Ashland team is well known here and will put up some real opposition for the local squad.

McCoy's Cod Liver Oil Tablets Helps You Gain Strength and Put on Needed Weight—Great.

Nothing like the vitamins in Cod Liver Oil to help a convalescing people to get strong and well—everybody knows that.

But nobody wants to take the disgusting, horrible tasting stomach up setting oil itself, so nowadays, up to date medical men are ordering a tablet of Cod Liver Oil and it surely does the work.

Ask Fisher & Streich, Wurster Bros., Stewart's Cut-rate Drug Store, or any regular druggist for a box of McCoy's Cod Liver Oil Tablets. They are sugar coated and as pleasant to take as candy. Skinny men and women take them to speedily put on plenty of good healthy flesh and for this purpose they are so extremely good that this men and women often take on five pounds or over in 30 days. Fortunate Is The Person Who Selects His Goal Early In Life And Finishes In His Mature Years So Says Dr. Frederick Blankner the Distinguished Specialist.

The reason why we have so much inefficiency in this world in the way of service, is because the vast majority of people never have a goal. The goal man, nature favors him with a stamp when he is born, and if he is not diverted his goal will be reached and in reaching it he will distinguish himself because he will be a person of service. Nature picks its great men. One it will stamp with all the requisites of a general, a leader, a lawyer, a doctor, a musician, a mechanic, or the inventor and hence we see all of these men making history and a substantial reputation. When a man has a goal and he loves to work for the goal you can rest assured that he will be a benefactor to mankind.

Dr. Frederick Blankner from early boyhood wanted to be a doctor and as a test of his sincerity was compelled to educate himself. All the way from the graded school, university, dental and medical college he held for every step and for the past 30 years has been very actively engaged in the treatment of complicated chronic diseases and likewise extracting teeth without pain.

Since 1918 he has visited Portsmouth from time to time and has gained the confidence of our people because of the excellent service he has given to the afflicted. Until Thursday, October 2 you have the happy privilege of making a little journey to Manhattan Hotel where you can meet him face to face in an honest fight from the shoulder, conscientious heart to heart. To the wise no more need be said.

## THE STORY OF SUGAR

WE dropped into a relative's home the other evening and found her busily turning the paper from one page to another, reading the grocery advertisements and animatedly discussing with a neighbor where sugar could be bought the cheapest.

By a strange coincidence we read, the next morning, in the Wall Street News, announcement that the Great Western Sugar Company, the biggest of the Big Four forming the beet sugar trust, would earn for the year a dividend of \$16 per share on stock of the par value of \$25 per share.

Now get that, \$16 on each \$25, or almost 80 per cent. As the Wall Street News relates, this same company earned last year \$18.22 a share, enough to pay for the entire stock in two years and allow besides a profit of 60 per cent.

Yet, this infant industry, with plants and stocks valued at \$25,000,000 and an accumulated reserve of \$20,000,000 in government bonds, is asking for "protection," appealing to members of the National Tariff Council for contributions of \$100 each and intimating that it is necessary to prevent the re-nomination of a member of the tariff commission, whose term is about to expire and who is understood to be for reduction of the tariff on sugar.

Prudent housewives are properly concerned in saving five or ten cents on the purchase of ten pounds of sugar. How many of them realize that every time they buy ten pounds of sugar they are paying three cents a pound to such over-fat trusts as the Great Western?

Let us explain how. The duty on imported sugar is now 176 cents a pound. The vast bulk of sugar consumed in this country, possibly more than nine-tenths of it is brought in the raw state from Cuba. When it is landed at the custom house inevitably the duty of 176 cents is added to its cost. The refinery that converts it into table sugar must add at least 25 percent to that 176 to allow for conversion and profit. That makes the added cost then to the wholesaler \$2.20. The wholesaler adds at least 11 percent when he disposes of it, so the grocer has to pay 2.42 a pound extra, on account of the tariff. Few retailers make a real profit of sugar, but there is considerable wastage and shrinkage in conversion and handling and these could easily add the fraction necessary to make the added three cents cost.

Under the tariff law, President Coolidge has the power to reduce the duty on sugar, has had it for some time and the matter has been pressed upon him ever since he became president by accident. He hesitates to make a decision and it is announced in sources close to him that he will make none until after the election.

We can guess why he hesitates. Colorado and other beet growing states are essential to his election. If he decides at an early date that the tariff on sugar shall be reduced, that may swing the votes of those beet states against him; if he doesn't give any reduction, nor one worth while, then how are twelve million housewives, who set sugar on the table three times a day going to vote?

## NEW YORK DAY-BY-DAY

BY O. O. McINTYRE

ON THE ATLANTIC. Sept. 26.—This morning I accompanied the captain to the living "inferno"—the engine room. The men work there in four-hour shifts on account of the terrific heat. After twenty minutes I was wringing wet with perspiration.

Then there was a visit to the steering gear, where several hundred are anxiously awaiting their first glimpse of the New York skyline. There were old women in shawls and old men in skull caps who were leaving far away lands to join successful sons and daughters in America.

There is no race suicide on this boat. Since leaving Southampton two babies have been born in the steerage and one in the second class cabin. Later I joined the bathers in the swimming pool and the black that has pursued me bobbed up again.

In a game of water hand-ball, an opponent swung for the ball, missed and landed kerplunk on my right eye. From the way it felt I imagine he swung from the ankle and no doubt by night I will have a perfectly "moused" optic. I'm the type likely to drown in a bath tub in mid-ocean.

With a strained tendon and a black eye I'm going to have much explaining to do in New York. I might explain the black eye by saying I ran into the door-knob and the strained tendon from the leg pulling of Paris hotel keepers.

This morning we neared the banks of Newfoundland and the usual fog is expected. The fog horn sounds like the crack of doom. Tomorrow is the last day on the Leviathan and the service has been excellent throughout. It is just as good as that of the British and French ships.

Landing cards are being passed out and the custom declarations made out. It has always seemed to me

there is more red tape passing through customs in New York than any port I have visited. The assumption seems to be that every one is a smuggler. It leaves a bad taste.

For one of my age, to indulge in shipboard flirtations should bring me blush, but last night the moon riding high, the shimmering expanse of water and all the things novelists prate about got me. I became involved in an affair I hope will not cause gossip. Particularly on the lady's account. I saw her first in a stateroom chair—a lovely young thing with golden hair and peach-blown cheeks. At my invitation she took a turn around the deck. We returned to the deck chairs and she sauntered close and finally fell asleep with her head pillowed on my shoulder. This morning I was not only to send her some candy. She is Miss Xaver. Thirty and will be four years old in October.

Knowledge of languages seems unnecessary in traveling. I found I could get about Paris with only a slight acquaintance with French and I have been able to get around the Levant with no knowledge whatever of Russian, despite the fact there are three hundred passengers whose names end in "ski" and "itch."

Fair weather means more perhaps in a pecuniary way to a ship's barber than anyone else aboard. If the sea is calm he has a steady flow of patrons, but if the sea is choppy no one is going to take chances with the scissors and razor.

It is rumored there is a duke traveling incognito on the ship. He is said to be keeping strictly to his quarters, but a fellow with a monocle could have a lot of fun. Copyrighted, 1924, by the McNaught Syndicate, Inc.
